

Accelerate Operations Analysis and Cycle Times

Intelligent Automation For:

- Procurement
- Inventory Management
- Production
- Asset Management
- Finance
- HR
- Sales

Our intelligent automation solution empowers leaders to transform critical workflows by leveraging existing processes and data. Rather than revolutionary overhaul, we take an evolutionary approach – digitizing and enhancing versus replacing.

The result is accelerated operations improvement. AI and integration optimize costs, cycle times, and handoffs while unlocking capacity. Real-time consolidated visibility enables proactive optimization across functions. This tailored automation drives efficiency, insights, and cycle times without abandoning existing infrastructure.

Optimize Procurement

Enable e-procurement with automated POs, analytics, supplier collaboration, and exception management.

Automate Production Workflows

Coordinate scheduling, quality workflows, documentation procedures, and exception management for manufacturing.

Attach Documents to Transactions

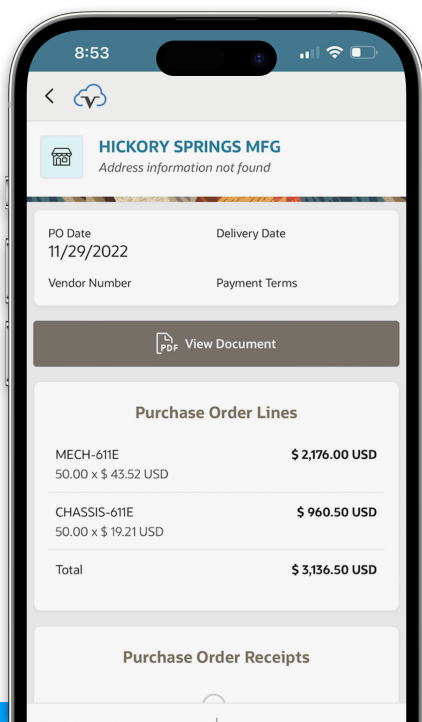

Automate attachment of receiving, shipping, inspection documents to enhance audit trails, reconciliation, and strategic compliance documents.

Manage Assets Intelligently

Track assets and enable predictive maintenance, repair workflows, monitoring, and real-time optimization.

Streamline Inventory Management

Optimize inventory with automation, analytics, and visual signals tailored to criticality.

Process Sheet - Accelerate Operations with Automation

Simplify Human Resources

Digitize recruiting, onboarding, training, payroll, time tracking, expenses, and other HR workflows.

Automate Data Ingestion

Intelligently ingest documents, forms, emails, scanned images, and other data sources.

Enrich Information

Analyze ingested data and augment it with contextual insights for enhanced value.

Replace Manual Data Entry

Automate data entry into systems by extracting key information from documents.

Inform Decisions with AI

Surface intelligent recommendations to optimize decisions in workflows.

Trigger Workflows

Activate downstream workflows and procedures based on automated decisions.

Industries

- Manufacturing
- Retail
- Financial Services
- Healthcare
- Services
- Repair and Overhaul
- Aerospace

Integrations

- ERP
- Quickbooks
- NetSuite
- Microsoft Dynamics
- SAP
- Oracle Fusion
- Financial Consolidations
- Planning and Budgeting
- CRM

Viscosity North America - Your AI Automation Partner

Viscosity North America provides software and services across data, applications, and cloud. We build AI-driven automations integrated across ERP, CRM, and Supply Chain systems. With over 30 published books on data, applications, and cloud, Viscosity has deep expertise. We are headquartered in Dallas with additional offices in Bryan, Guatemala, and India.  viscosityna.com
