Oracle E-Business Suite Consulting Services

VISCOSITY NORTH AMERICA

Viscosity E-Business Suite offers comprehensive services across Oracle E-Business (EBS) and Oracle Cloud suite of applications. Whether you implement a single module, multiple modules, or the entire suite, our team of consultants have the experience to accelerate your project deadline and lower cost of implementation.

Our elite team of consultants have been developing, implementing, and managing Oracle E-Business Suite applications for an average of 15+ years. We bring deep expertise to all aspects and components of the product line, including:

- Upgrades to EBS 12.2, EBS 12.2 reimplementation
- Automation of database and Application Tier cloning
- Functional design and design review of Oracle Applications data conversions, interfaces, custom reports and custom applications
- APEX
- Reports / Discoverer / OBIEE / XML Publisher
- SQL
- Oracle SOA
- Engineered Systems Intergration
- Platform migrations
- Application Server (iAS) / Weblogic
- Fusion Middleware
- Oracle Database 11g/12c

Viscosity leverages the best-in-class methodology and standardized toolkits to simplify the EBS upgrade process on-premise or in the cloud.
